---

## PROJECTS

### RESPONSIVE PORTFOLIO (CONTAINS PROJECTS)

--<https://gacannha.github.io/Portfolio/>

My personal portfolio showcasing my skills and expertise in creating impactful web solutions. Through a combination of innovative designs, user-friendly interfaces, and clean code, I have successfully developed a range of projects that demonstrate my abilities in front-end development.

---

### EDUCATION WEBSITE (UNIVERSITY/SCHOOL)

A replica or clone of a university's official website. It recreates the design, layout, and functionality of the original website with the purpose of learning or practicing web development skills.

### TO-DO LIST ORGANIZER

A web-based tool designed to help individuals manage and organize their tasks and responsibilities more efficiently. It provides a centralized platform where users can create, track, prioritize, and manage their to-do lists.

---
